BABY BANK FINANCE

A practical guide to recording, reviewing and managing charity finances

WELCOME

This guide walks you through everyday tasks in Baby Bank Finance, with separate guidance where staff and administrator permissions differ.

SIGN IN • RECORD • REVIEW • REPORT

A quick note about access

The options you can see depend on your account. **Staff** can record and review day-to-day transactions. **Administrators** have additional tools for user access, charity settings, audit activity and correcting records.

STAFF	ADMINISTRATOR
Day-to-day use	Staff tools plus administration

Your guide at a glance

01 **Sign in and manage your account**
Access, password reset, registration and approval

02 **Dashboard**
Understand the weekly overview

03 **Record a transaction**
Enter income or expenditure

04 **Search transaction history**
Find and review saved records

05 **Financial reports**
Choose a period and export a PDF

06 **Administration**
Manage users, settings, corrections and audit activity

07 **Getting help**
What to do if something goes wrong

Before you begin

Use the web address provided by your charity. Keep your password private, and sign out when you have finished using a shared device.

01 Sign in and manage your account

Sign in

1. **Open the charity's Baby Bank Finance web address.**
   Use the address provided by your charity administrator.
2. **Enter your registered email and password.**
   Select **Sign in** to open your workspace.
3. **Forgotten your password?**
   Select **Forgot password?**, enter your email address and follow the reset link sent to your inbox.
4. **Finish your session securely.**
   Open **Profile** and select **Log out**.

Register a new account

1. **Start from the sign-in screen.**
   Select **Create an account**.
2. **Enter your details.**
   Provide your full name, email address and a password between 12 and 128 characters. Confirm the password and submit.
3. **Confirm your email address.**
   Open the message sent to your inbox and follow its confirmation link.
4. **Wait for administrator approval.**
   After email confirmation, an administrator must approve your access. Financial records remain unavailable until approval is complete.

> **Your account status**
>
> Your Profile shows your name, email, role and access status. If approval is delayed, or you believe it was made in error, contact your charity administrator.

02 Dashboard

The Dashboard is your starting point. It gives an overview of recorded income, expenditure and balance, together with a weekly summary and recent transactions.

WEEKLY OVERVIEW	RECENT ACTIVITY
Income **Money received** Expenditure **Money spent** Balance **Net position**	A short list of the latest recorded transactions helps you check recent activity at a glance.

1. **Move between weeks.**
   Use **Previous** and **Next** to change the week shown.
2. **Add a new record.**
   Select **Record transaction** to enter income or expenditure.
3. **Open the full history.**
   Select **View all transactions** to search and review records.

Remember

Dashboard totals reflect recorded transactions. Voided transactions are excluded from financial totals.

03 Record a transaction

Record money received as **Income** and money spent as **Expenditure**. Take a moment to check the details before saving.

1. **Open Transactions.**
   Choose **Transactions** from the navigation, or select **Record transaction** on the Dashboard.
2. **Choose the transaction type.**
   Select **Income** for money received or **Expenditure** for money spent.
3. **Enter the date and amount.**
   Enter the transaction date and amount in pounds (£).
4. **Choose a category.**
   Select an active category that matches the transaction type.
5. **Add a clear description.**
   A reference, such as a receipt number, is optional.
6. **Check and save.**
   Review the details, select **Save transaction** and wait for the success message before leaving the page.

A quick check before saving

AMOUNT	Must be greater than £0.00 and use no more than two decimal places.
DESCRIPTION	Must contain at least three characters. Use wording that will help someone recognise the transaction later.
CATEGORY	Choose an active category for the selected transaction type. If none are available, contact an administrator.

Connection issue?

Transactions are not saved while offline. Reconnect to the internet and submit again if you see a connection error. Check the transaction history before retrying if you are unsure whether it was saved.

04 Search transaction history

Open **History** to review saved records. The history page helps you find a transaction and check its details.

1. **Search by description.**
   Enter words from the transaction description in the search box.
2. **Choose how records are displayed.**
   Switch between **All transactions** and **Group by week**.
3. **Review the record details.**
   Check date, type, category, description, reference, status and amount.

Staff and administrator access

STAFF	ADMINISTRATOR
Staff see active records. They cannot edit or void transactions from this screen.	Administrators can also see voided records and the reason recorded for voiding. They can void or restore transactions.

> **What does voided mean?**
>
> A voided transaction remains in the record history but is excluded from dashboard and report totals.

05 Financial reports

Open **Reports** to review income, expenditure and net balance, alongside weekly summaries and a monthly trend chart.

1. **Choose a reporting period.**
   Select a **From** date, a **To** date, or both.
2. **Apply the dates.**
   Select **Apply dates** to update the report for the chosen period.
3. **Reset the date range.**
   Select **Clear** to return to the full date range.
4. **Download a report.**
   Select **Export PDF** to download the report for the selected period.

What the PDF includes

PERIOD	SUMMARY TOTALS	DETAIL
The selected date range	Income, expenditure and net balance	Weekly and monthly summaries, plus detailed transaction records

> **Date and totals**
> The start date must be on or before the end date. Voided transactions are excluded from report totals and PDF exports.

06 Administration

Administrator-only links appear in the workspace navigation. These tools help manage access, charity preferences and the record of important activity.

Approve and manage users

1. **Open User Management.**
   Review registered users and their access status.
2. **Approve a pending staff account.**
   Select **Approve** when the person should have access to charity financial records.
3. **Remove access when needed.**
   Select **Deactivate** for an active staff member. An inactive account can be approved again.

> **Access control**
>
> An administrator cannot change their own access here. Administrator accounts are managed separately. Only approve people who should have access to charity financial records.

Charity settings

Open **Settings** to view the charity name, currency, timezone and first day of the week. Administrators can change and save these values; staff can view them but cannot edit them. Agree changes with the charity before saving, because these preferences affect how financial information is presented. Settings changes are recorded in the audit log.

Void or restore transactions

1. **Find the transaction in History.**
   Administrators can void an active transaction from the history screen.
2. **Void the record.**
   Select **Void**, enter a reason and confirm. A reason is required.
3. **Restore if appropriate.**
   To include the transaction in totals again, select **Restore** on the voided record and confirm.

> **Take care**
>
> Voiding or restoring a record changes dashboard and report totals. Check the transaction carefully before confirming.

06 Administration — continued

Audit log

Open **Audit Log** to review the latest recorded activity. Entries can include who made a change and the previous or new data where available. The page displays up to the 100 most recent entries.

WHO	WHAT	WHEN / DETAILS
The account that performed the action	The activity or change recorded	The recorded event and previous or new data where available

07 Getting help

For approval, access, missing categories or questions about a financial entry, contact your charity administrator.

ACCOUNT APPROVAL

Your email is confirmed but your account is still waiting for approval.

ACCESS OR SIGN-IN

You cannot access a page or need help with your account.

MISSING CATEGORIES

No suitable active category is available for the transaction type.

FINANCIAL ENTRY

You have a question about a transaction or its details.

If information will not load

Refresh the page and try again. If the problem continues, contact an administrator.

THANK YOU

Thank you for helping your charity keep clear, consistent and useful financial records.
